

High-Reach Disposable Dusting

Snake Bend Spine Duster + Disposable Sleeve

*Quik-Stik Disposable
Dusting Sleeve Slips
Over Snake Frame*

*Snake Bends
in Unlimited
Configurations*

QUIK-STIK DISPOSABLE SLEEVES

Non-woven material uses glue-infusion technology which creates a sticky surface that captures and holds dust and dirt. This enables safer dusting as it minimizes airborne particles.

FAST SLEEVE ATTACH + REMOVE

Disposable dusting sleeves slip easily on and off the frame. A star-keeper secures them during use.

PADDED FRAME = BETTER CONTACT

Frame is padded to provide better cushioning for superior surface contact and maximum cleaning performance.

FLAT, THIN + EASY BEND FRAME

The Snake frame is thin enough to fit into skinny crevices. It can also be easily bent into the shape needed for your particular dusting surface and holds its shape even when pressure is applied during use.

SNAKE BEND SPINE DUSTER

THIN, FLAT PROFILE FOR SKINNY CREVICES

Use flat to reach into areas where fluffy dusters just can't get into!

EASILY BENDS, FIRMLY HOLDS SHAPE

Angle and shape the Snake frame to conform to the surface.

FRAME PADDING ADDS CUSHION

Better cushioning provides superior surface contact and maximum cleaning performance.

DURABLE CO-POLYMER MATERIAL

Co-polymer material is durable, metal-free, light-weight and easy to clean. Won't rust or dent.

QUIK-STIK DISPOSABLE DUSTING SLEEVES

EASY ON, EASY OFF; STAR-KEEPER SECURES DURING USE

Quik-Stik Disposable Sleeves slip effortlessly onto the Snake frame. Secure the sleeve during use by simple pressing it into the star-keeper. When soiled, simply pull to disengage and remove it from the frame.

GLUE-INFUSION TECHNOLOGY

Made with glue-infusion technology, the Quik-Stick's slightly sticky surface holds dust and dirt, leaving surfaces dust-free and residue-free.
