

AB PLUS: ANTI-MICROBIAL

Operating Room Workstation

ANTI-MICROBIAL ADDITIVE, NOT COATING

Filmop's AB PLUS Workstation and elements are made with co-polymer material in which anti-microbial additives are added during production. Therefore, the anti-microbial effectiveness is guaranteed for the entire life cycle of the material.

99.9% BACTERIAL REDUCTION*

Efficacy tests by a third-party testing laboratory shows a 99.9% reduction for *Escherichia coli* and *Staphylococcus Aureus* contamination.

EASY ACCESS SLIDE-OUT DRAWERS

Two drawers are standard with the ability to add more drawers or increase drawer capacity. Sliding action eliminates excessive bending and reaching.

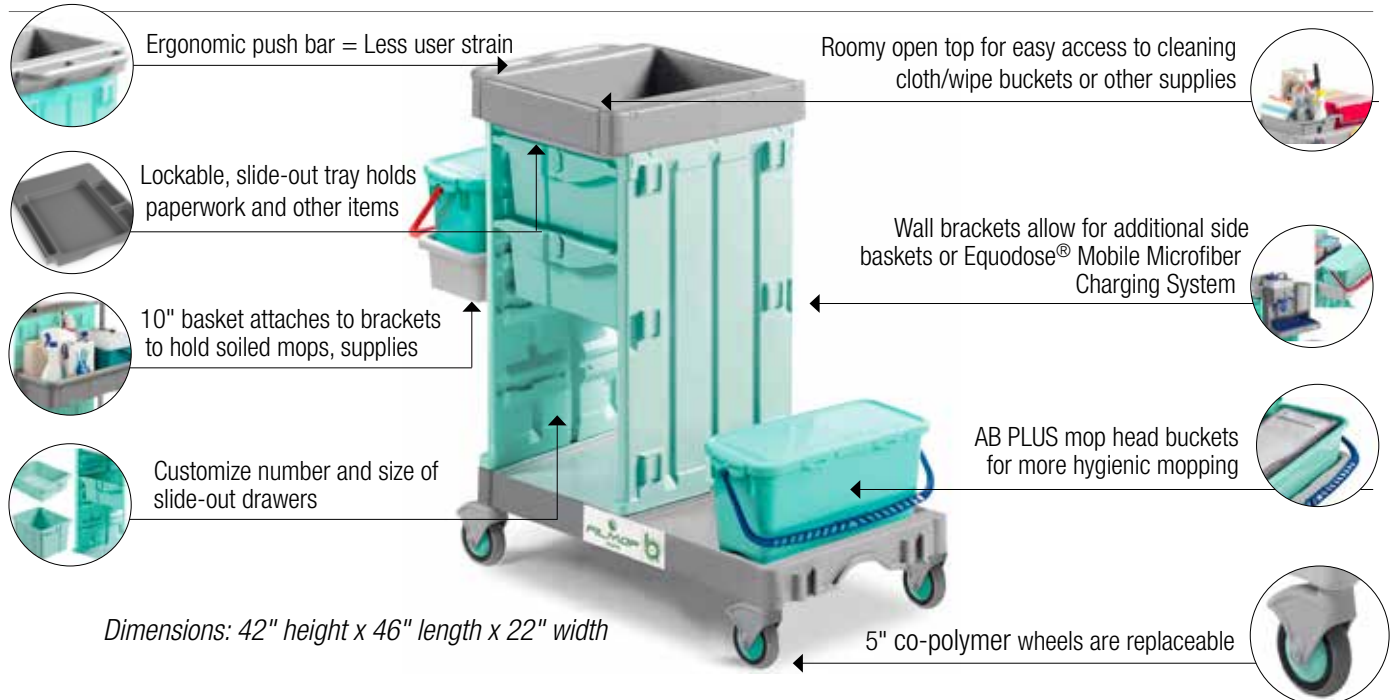

SANITARY, SILENT WHEELS

Non-marking, 5-inch co-polymer swivel wheels provide 360° precise handling while rolling silently and easily over uneven surfaces.

*Test carried out by EcamRicert Srl according to the ISO 22196:2011 method.
