# OMEGA FEATURES

The OMEGA cleaning cart is Filmop's solution for effective cleaning in the janitorial industry. It is lightweight, sturdy, compact, ergonomic, easy to assemble, recyclable and customizable. OMEGA carts feature three main sections:

- **Storage Tower:** Comes with one central shelf. Can add one or two lockable drawers (nine gallon capacity each).
- **Collection Unit:** Bag holder (32 gallon capacity) folds up and locks, reducing length by 12". The lid has hydraulic pistons for quiet, "soft-close" operation. The zippered bag can be customized with divided inserts to separate waste collection.
- **Multi-purpose Platform (21" x 14"):** Easily transport a Twice® Split Bucket, a Top-Down® Charging Bucket or other items, such as a vacuum.

OMEGA with Open Platform

OMEGA with Twice® Split Bucket Wringing System

OMEGA with Top-Down® Charging System

Drawers can be installed on either side.

Nine gallon, lockable sliding drawers reduce bending and reaching.

Steering handle/bag locks in place avoiding disengagement when lifting to cross uneven thresholds.

Foldable trash bag reduces length by 12" and locks in place.

Lockable trash bag cover with see-through document panel.

Hydraulic pistons provide silent, "soft-close" cover to hide unsightly waste.

Zipper access for horizontal, ergonomic bag removal.

"Wrap-n-Snap" bag holder secures bag liner until removal.

Dividers available to create two or three trash compartments.

Deep edges securely hold buckets during transport.
