

Mobile Microfiber Charging System

The first mechanical, on-demand, dispensing system for charging individual microfiber mop heads on FILMOP® Workstations

ELEVATES CLEANING PERFORMANCE

- Provides systematic charging process
- Addresses Quat-binding concerns
- Microfiber ready for use within seconds

ENGINEERED FOR SAVINGS

- Saves water, chemical, mop usage
- Ability to track solution-to-mop usages
- Durable, long-life construction

INTUITIVE OPERATION

- Easy-to-operate hand lever
- Consistently dispenses desired amount of cleaning solution

SECURE & SAFE

- Key locks both tank and dosing dial
- All components removable for cleaning

REDUCES USER STRESS

- Eliminates heavy buckets

EQUODOSE™

FEATURES

Removable, lockable tank holds up to 1.5 gallons of cleaning/disinfecting solution.

Co-polymer key won't rust, bend or break. Securely locks tank and dial in place.

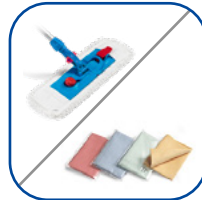

Dial desired amount of solution from 2 ounces to 12 ounces per activation.

Easy hand lever dispenses solution into tray; push button locks to avoid involuntary operation.

Removable tray designed to rapidly deliver uniform mop charging

Charge either microfiber mop heads or microfiber cloths

Allows for two different RTU or use-diluted cleaning, disinfecting or sanitizing solutions.

EQUODOSE™

EASY, FAST & FLEXIBLE

Hand lever dispenses desired amount of cleaning solution to rapidly saturate a single mop head, right before use.

- Economizes on water, chemicals, and labor; charge only mops when needed.
- Dispensing amount can be locked in place for consistent chemical use.
- Provides flexibility to adjust dispensing amount to adapt for cleaning needs of different surfaces and procedures.

ALPHA + EQUODOSE™

Alpha workstations with Equodose Mobile Microfiber Charging Systems optimize your resources:

TIME:

No more extensive mop preparation/charging procedures.

LABOR:

No more heavy buckets to prepare and transport.

WATER & CHEMICALS:

Determine and lock-in desired amount of solution per activation.

Use only the solution needed per mop head.

Eliminate the laundering of charged, but unused mop heads.
