

Total Mop Sprinter

In-Handle Tank Bucketless Cleaning System

TANK INSIDE HANDLE HOLDS SOLUTION

Solution is gravity-fed for dispensing directly from handle without tubes or spray mechanisms which can break.

USE CHOICE OF CLEANING SOLUTION

Fill handle with your choice of cleaning or disinfecting solution between 3-10 pH.

EASY PUSH BUTTON ACTIVATION

Push button at top of handle knob dispenses solution as desired.

FEATHER-LIGHT MATERIALS

Made with light-weight aluminum and durable co-polymer plastic for easy use and long-term durability.

IN-HANDLE TANK BUCKETLESS CLEANING SYSTEM

Features: TOTAL MOP SPRINTER In-Handle Tank

Push-and-Dispense Mechanism

Open cap to in-handle tank and fill with choice of cleaning solution between 3 and 10 pH.

Depress push button to activate dispensing of solution while handle is angled towards user. Release button to stop flow.

Cleaning solution is dispensed through three small holes at the handle's bottom until push button is released.
