

Split Bucket Compact Mopping

CO-POLYMER MATERIAL

Exceptional return-on-investment as TWICE is made with superior co-polymer material which is durable, light-weight, absorbs impact and is fully recyclable. It resists mold, mildew and bacteria growth and won't rust.

COMPACT SIZE

TWICE has compact footprint of just 23" x 15" and fits on standard cart platforms for transporting. It is engineered for perfect balance while wringing.

MORE HYGIENIC MOPPING

Split bucket configuration separates dirty rinse water from cleaning solution, thus effectively removing dirt from the floor and out of the building. Design allows for full immersion of mop into rinse water for more complete removal of dirt.

CUSTOMIZE BY MOP & WRINGER

Choose from four different wringers and four different mops to best meet your needs.

Customizing TWICE Split Bucket

1 START WITH PRECISELY ENGINEERED, CO-POLYMER SPLIT BUCKET

TWICE Split Buckets are made with superior co-polymer material. The smooth surface is easy to clean and disinfect and resists mold, mildew and bacteria growth. It won't rust, absorbs impact and delivers a long life-span.

2 CHOOSE YOUR WRINGING PREFERENCE

3 CHOOSE YOUR MOP

Spin-n-Drop Tab Mop

Converts from flat mop to wringable mop. Tabs secure mop head onto frame. Foot-activated collapsing for wringing.

Microfiber String Mop

Made with superior stitching and microfiber material, our microfiber string mop captures and holds dirt until released in wash.

Uni-Tab Pro Mop

Touch-free attach and release. No spin, no hassle flat-to-floor action. Can also be used for pocket mops/charging mopping systems.

Microfiber Tube Mop

Ribbed microfiber thick tube construction provides extraordinary capture of even the smallest dirt particles. Reduces chemical usage by 60-90% compared to cotton mops.

UNIQUE FEATURES: TWICE SPLIT BUCKET COMPACT MOPPING

HOW THE SPLIT BUCKET MOPPING SYSTEM WORKS

TWICE SPLIT BUCKETS KEEP CLEANING SOLUTION SEPARATE FROM RINSE WATER. IT MOVES THE DIRT OUT OF THE BUILDING, NOT BACK ON THE FLOOR.

- 
Fill front section with cleaning solution; rear section with clean water
- 
Dip mop into cleaning solution in front section
- 
Wring excess.
- 
Mop floor.
- 
After mopping, insert mop into rinse side to remove soil.
- 
Wring.
- 
Dip mop into cleaning solution.
- 
Wring excess.
- 
Wring and continue mopping floor, repeating steps as needed.
- 
When ready, pull plug on desired side and empty down drain.
